

College in the High School Prerequisite Guide

Per RCW 28A.600.287 and WAC 392-275-130, students must meet any course prerequisites or other requirements established by the college to ensure student readiness and must be considered a 9th, 10th, 11th, or 12th grade student per school district grade placement policy to enroll in CiHS courses.

Prerequisites must be met before the first class day at the high school. Students should apply to SPSCC, activate their student accounts and either submit documentation to the Assessment Center or take the appropriate placement exam before the end of summer prior to the CiHS course beginning.

If a student is currently enrolled in the prerequisite class at the high school, final grades for the course should be submitted at the end of the term for review and placement. Courses with no prerequisite do not require testing or placement- a student will be enrolled once they complete SPSCC admissions and the CiHS Registration Request.
