South Puget Sound Community College | Success Amplified

2025-2026 Nursing Factbook

SPSCC Nursing Program
Dr. Angela Bowen Center for Health Education
2421 Heritage Ct. SW
Olympia, WA 98502

Introduction

The South Puget Sound Community College Factbook is a collection of nursing program data compiled to provide information to those who make decisions, write grants, and to the public interested in the nursing program. The Nursing Factbook is a snapshot of the collective program. Data and information are updated annually.

Our Mission

The Nursing Program at South Puget Sound Community College prepares students to engage within the nursing profession, to thrive in the work force, and to further advance their professional knowledge and practice. This is achieved through an emphasis on lifelong learning, integration of technology, and information derived from evidence-based practice. Our students will be supported to be successful within the nursing program at SPSCC and provided opportunities for a seamless transition to their BSN and beyond.

Our Vision

South Puget Sound Community College's Nursing Program is recognized as a leader in the South Sound region. Partnership with local stakeholders, innovative curricular design, and inclusion of a diverse student population prepare graduates to address diverse local and global community health and wellness needs. Graduates will be prepared to pursue further education and to become nurse leaders, innovators, and creative community partners in the continually evolving nursing profession.

Our Values

The values of the nursing program at South Puget Sound Community College reflect nursing and nursing education:

Caring

Compassion

Accountability

Empowerment

Respect

Effective Communication

Excellence with Integrity

Humor and Laughter

The mission/philosophy, vision, and program outcomes of the nursing education department are congruent with the core values and mission/goals of the governing organization.

Nursing Employer Satisfaction Survey Data

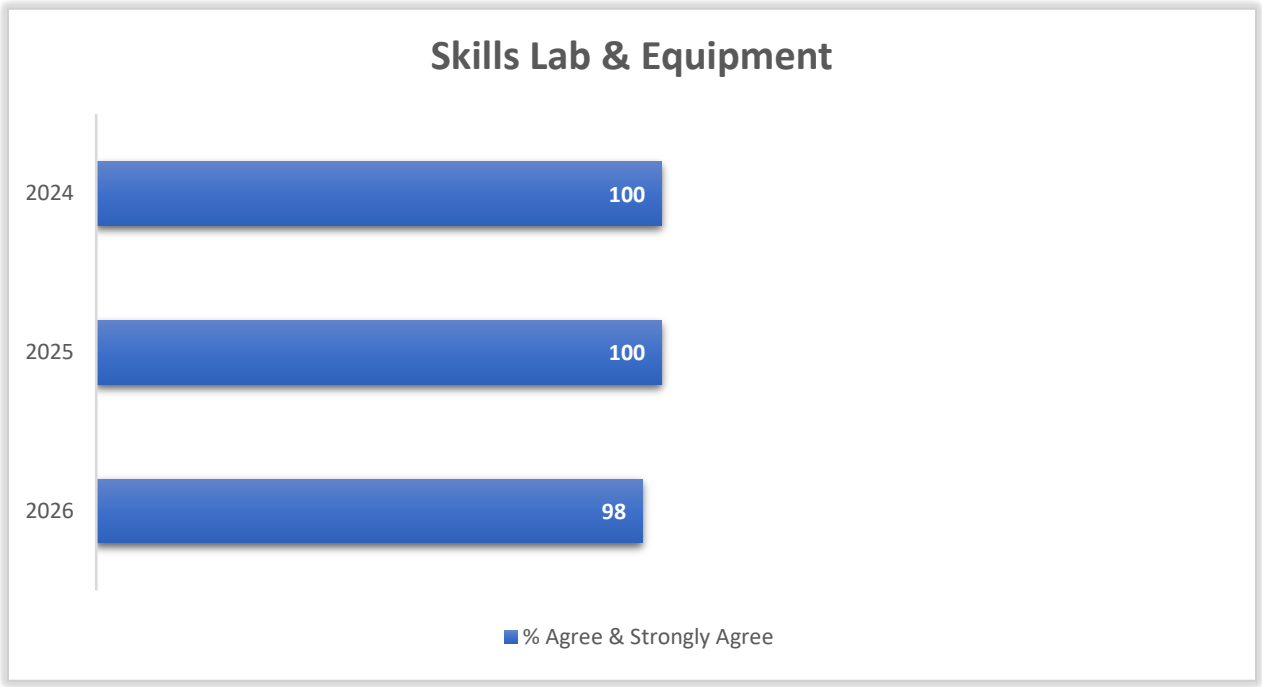

SPSCC Nursing Student Program Assessment Data

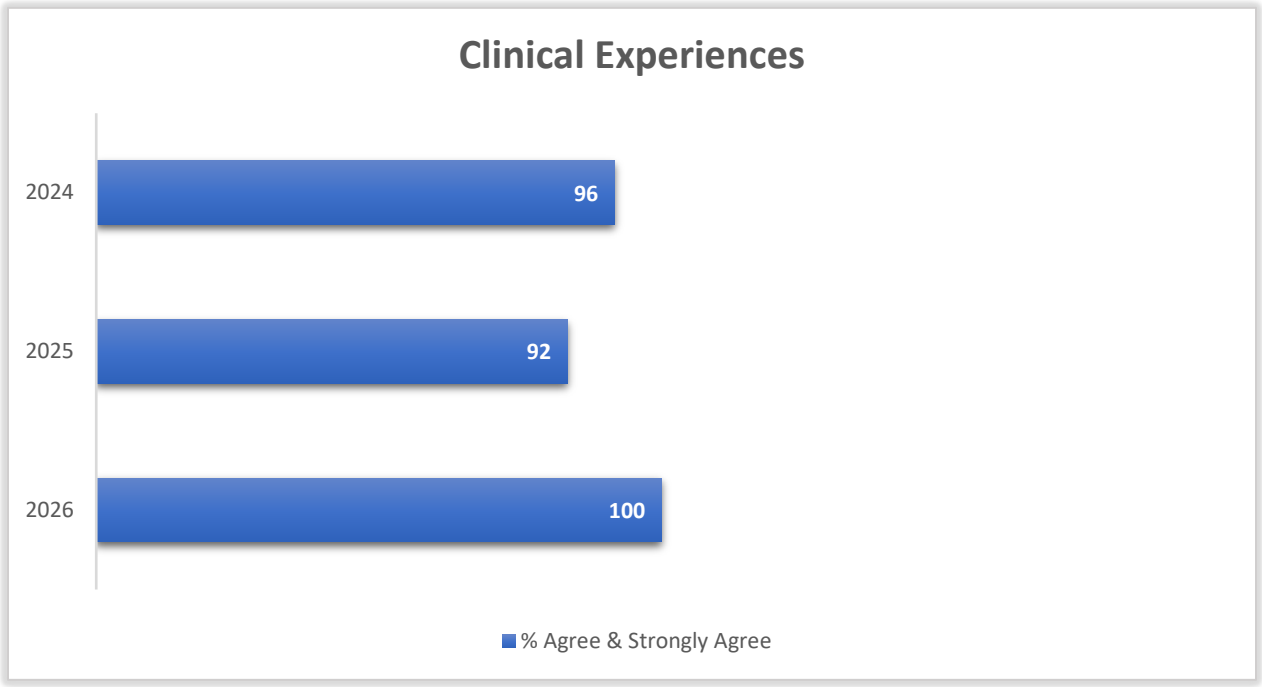

The resources available to me (Canvas, open lab time, simulations, textbooks, ATI) are accessible and helpful in my learning.

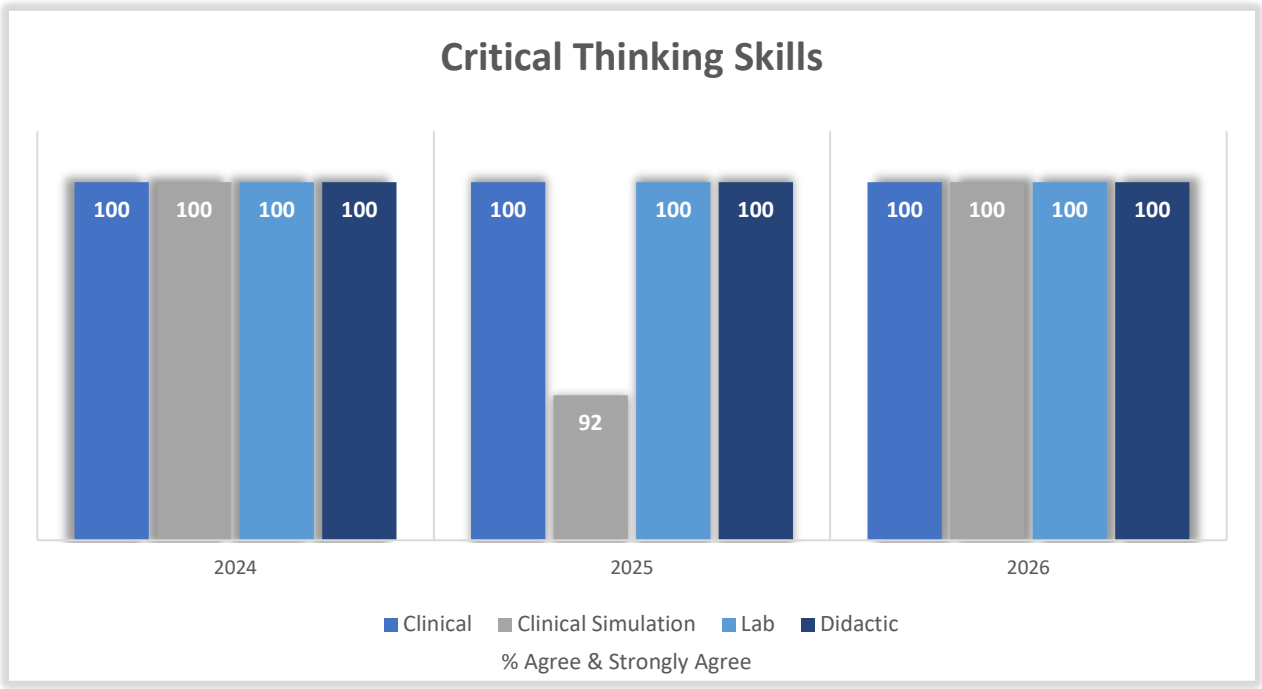

The nursing skills lab and equipment were sufficient for learning.

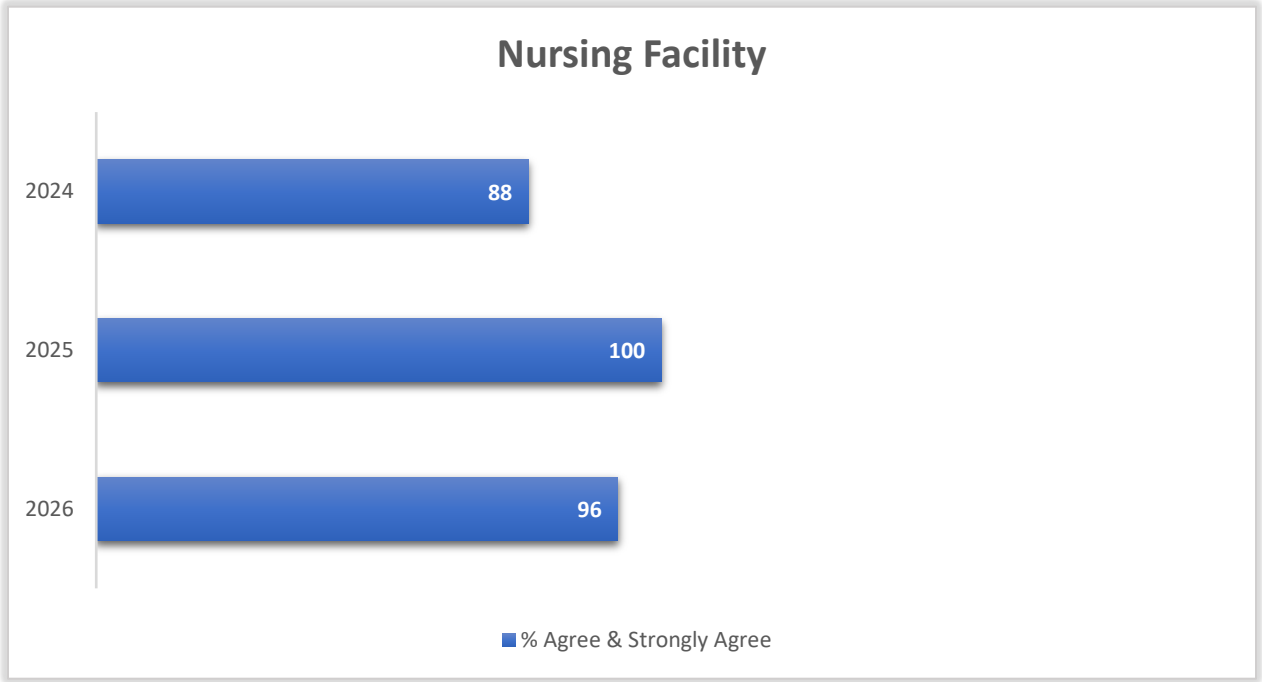

I had diverse experiential learning (clinical) opportunities.

My critical thinking and judgement skills have been put to use in the didactic, lab, clinical simulation, and clinical experiences.

I am satisfied with the nursing program facility (ABC Building)

SPSCC Nursing Program prepared me for the role of a registered nurse:
