

## FINAL EXAM SCHEDULES, ACADEMIC YEAR 2019-2020

1. If a class time does not appear on this schedule, students should check with their professors.
2. Classes with associated labs should have their final exam/culminating project according to their lecture schedule.
3. Online courses may schedule proctored final exams. These typically occur during the first half of finals week. Students in online courses should check with their professors about requirements for final exams/culminating projects.
4. The final exam/culminating project will be conducted in the regularly scheduled classroom.
5. Classes with non-standard start times will schedule exams to begin at the nearest standard start-time relative to hour and day. For example,
  - A TTH block class that begins at 7:30 will schedule its exam in the Tuesday 7:20 to 9:20 time slot.
  - A MTWTH class that begins at 8:30 will schedule its exam in the Wednesday 8:40 to 10:40 time slot.
6. In case of final exam/culminating project time conflicts arising from irregular class times or a conflict within this schedule, the student should notify the relevant Division Dean/Office and contact the professor regarding the conflict as soon as possible.
7. Any exceptions to the posted schedule will need to be approved by the appropriate Division Dean.
