## iGrad Scholarship Submission Process

March 20, 2018

### Scholarship Submission Form

---

All scholarships are submitted electronically using the following link:

<https://igrad.wufoo.com/forms/m3ui1ee1uylqtl/>

When completing the Scholarship Submission Form shown below, please provide as much information as possible to ensure a timely review.

### iGrad | Enrich: Scholarship Submission Form

Submit a scholarship to be included in our scholarship search engine. Our scholarship administrators will review all submissions and add them to the search engine if the scholarship meets our requirements.

## Scholarship Submission Review

---

Each submission must meet iGrad's quality promise which can be found at the following link:

<https://www.igrad.com/landing/quality-scholarship-promise>

Scholarships included in our database undergo a two-phase evaluation process for quality to ensure the students best interest:

1. Scholarship sponsor evaluation
2. Individual scholarship evaluation

Based on user testing, we found that the student's goal is when they run a search, they will be eligible for every scholarship in the results.

If a scholarship is declined by iGrad, and when requested by a specific school, a scholarship with ultra-niche requirements may still be added to the database. Though we think this devalues the user experience.

All scholarship submissions are reviewed within 48 business hours once they are received.

## Scholarship Submission Notification

---

When requested at the time of submission, iGrad will notify the submitting person via email when their scholarship is approved or declined.

For any questions or further assistance please contact your Client Success Manager or [partnerrequests@igrad.com](mailto:partnerrequests@igrad.com).
